## ABOUT US

Turnkey Project Partners Ltd (TPP) is an indigenous engineering and procurement, operation, and maintenance company in Ghana. The company was established to supply global customers with Electrical, Mechanical, industrial, and Engineering Products, on time and at the most competitive prices. TPP has an unrivaled commitment to the building, industrial, infrastructure, mining, oil, and gas segments and has gained the support of the leading manufacturers which ensures our solutions are at the forefront of today's technology.

## SERVICES

### **SPECIALISED INDUSTRIAL SOLUTIONS(COLD FORMED STEEL SOLUTIONS)**

#### The Endless Possibilities of Cold Formed Steel

Whether you build in the residential or non-residential sector, when you need a dependable construction method that delivers projects on time and within budget, you can't go past cold formed steel (CFS) construction. Flexible, reliable commercial storage and warehousing needs to be built rapidly and affordably to respond to growth. We provide everything required to implement this type of commercial construction – from building design to manufacture and onsite training.

Steel Building Applications Include: Small Storage to Large Warehousing, Heavy Equipment, Tractor, Airplane hangars, Garage, RV, Boat Storage Building, Work Shop, Man Cave, She Shed, Ranch, Farm/AG, Equestrian Solution, commercial, Industrial, Manufacturing, Professional, City, Municipal Buildings

# SPECIALISED MEP SERVICES

Mechanical, Electrical, Plumbing, Fire system and HVAC designs are the lifelines of any building, and it is important they are developed with utmost accuracy and perfection. Our MEP engineering design validation services provide sustainable solutions for projects across industries such as Oil/Gas, Hospitals, Commercial Buildings, Industrial and others.

The Company offers the following integrated MEP services

- Design, detailed engineering, manufacturing, procurement, project management, Installation, testing, commissioning, approvals, and maintenance of large central air conditioning plants
- Design and execution of electrical contracting projects
- Design and execution of plumbing and fire-fighting systems
- Design and execution of low voltage systems
- Design and execution of Telecom Systems

# SPECIALISED AUTOMATION AND COMMUNICATION

Turnkey Project Partners widely known as an automation company that offers expertise in designing, manufacturing and developing of solutions in Electrical Automation and Communication Systems. Focused on quality, reliability and innovation, the company offers to be a one stop shop for OEM's, Panel Builders, EPC's, Power- Generation, Transmission, and Distribution, Renewable Industry, Utilities, Industrial Plants etc. Throughout their growth, they have diligently pursued policies of technical excellence, product development, In-house tooling, continuous in-house research and development to offer customised solutions to a wide range of customers.

# SPECIALISED MINING SERVICES

Turnkey Project Partners offers custom high-density polyethylene (HDPE) services  
HDPE internal pipe lining (Roll Down Tight Fit)  
HDPE Welding and Installation  
Slip Lining – Pipe in a Pipe  
Slip Lining Using Spoolable Composites  
Pipe Bursting  
Plastic pipe systems  
Pipeline Abrasion and Corrosion Protection  
New pipeline construction

# SPECIALISED OIL/GAS AND POWER SERVICES

## • **Cathodic Protection Design & Installation**

Turnkey Cathodic Protection Services is a one-stop-shop for all things CP. Services include design, materials supply, installation, commissioning and ongoing routine maintenance for a variety of onshore, offshore and concrete based impressed current and sacrificial anode CP systems: Structures include pipelines (oil, gas, water), steel reinforced concrete, storage tanks (above and below ground), bridges, tunnelsmarine vessels, offshore platforms / FPSOs, mine sites, petrol stations, wharves, jetties and ports, power plants

## • **Pipeline Leak Repairs/Clamping**

Turnkey Project Partners has proven it's strength in the area of pipeline and flow-line leak repairs and clamping services, on land, swamp, canals and river crossings.

## • **Valve Maintenance**

Industrial Valve repairs and services all brands and sizes of valves, and our technicians are available 24 hours a day, 365 days a year.

## • **Industrials Protective Coatings: Blasting, Priming and Painting**

We provide an extensive range of protective coatings services, our team being internationally certified for blasting services, painting and priming surfaces, services that are provided at the highest quality standards.

## • **Insulation Solutions**

We supply the oil and gas industry with products designed to insulate valves, pumps, and flanges. Our products prevent the occurrence of fire damage in explosive environments. In addition, our technology significantly improves safety for the people working on the site and protects expensive equipment from damage.

## SPECIALISED WATER TREATMENT SERVICES

Our partners are leader in the line of desalination, water treatment and waste water treatment dedicated in providing innovative, efficient, cost effective and high performance solutions with over 35 years of successful projects experience, thus ensuring unsurpassable quality and timely deliver.

## GENERAL PROCUREMENT SERVICES

Turnkey Project Partners provides clients with innovative Sourcing and Procurement Services. Through these supply chain services, we help companies to achieve both monetary savings and improved supplier relationships. We offer a variety of value-added services, including Category Management, Contingency Based Cost Reduction, Contracting, Negotiations, Strategic Sourcing Services, and more. Foreign and local Procurement which includes, electrical, mechanical, cable, instrumentations motors, fire detection system and piping materials, Filters ,Pumps and Valves, consumables

## MANPOWER SOLUTIONS

Experts in manpower - We can provide the qualified, competent and certified workforce to your projects worldwide in Road construction, Mining ,Oil and Gas ,Power, Maritime Industry

## CLIENTS
